

Products & Services

Brands You Rely On. Services You Can Trust.

Triad provides the technical knowledge, application assistance, and custom solutions to help you grow your business.

Founded in 1981, Triad Technologies is one of the region's leading distributors of hydraulic, pneumatic, automation, filtration, and lubrication technologies. We are a premier, full-line stocking distributor of Parker Hannifin products, as well as other industry leading brands.

Expert Services

To complement our brands, we offer a full suite of support services. We deliver critical knowledge, specialized solutions and expertise that can improve your organization's productivity and extend the value of your equipment.

Engineered Systems & Manufacturing

Product expertise, critical application knowledge, and custom solutions

From motion-control components to complete integrated systems, we partner with our customers to offer the best solution for a variety of applications:

- Electromechanical
- Hydraulic
- Pneumatic
- Lubrication
- Filtration
- Electrical Automation

Service & Repair

Offering a wide range of installation and repair services

Our service center is staffed by factory-trained technicians who have the experience and knowledge to complete any job, including trouble-shooting and inspection, assembly and testing, tube and hose fabrication, hydraulic assemblies, preventative maintenance and more.

Kitting & Sub-Assemblies

Freeing you to focus on your core competencies

Designed to your specifications, our kitting and sub-assembly service helps you reduce costs and save time. We offer a variety of kits and sub-assemblies:

- Hose & Fitting Kits
- Motion Control Kits
- Custom Packaging
- Component Sub-Assembly
- Custom Seal & O-Ring Kits
- Parts Kitting

Vendor Managed Inventory (VMI)

Get the right products at the right time in the right place

Our VMI program helps control inventory accuracies and forecasting while eliminating stockouts. Triad's team of inventory management specialists support the program by assisting with all application requirements, providing guidance, and conducting product or assembly training as needed.

Mobile Services

Meeting you when you need us most

Our dedicated team of mobile service and repair technicians offer on-site installation, maintenance and repair services. Whether it's a simple hose assembly or total system installation, we'll bring the proper tools and parts to get the job done right. Our experienced team of on-site technicians can bend, flare, cut, crimp, and fit almost any assembly.

Automation Testing

Custom solutions with hands-on application testing

Triad Technologies' automation services help you streamline your processes and maximize your bottom line. Our state-of-the-art testing lab provides you with the perfect environment to develop, qualify, and refine your solutions before integrating them into your production line.

T-Slot Aluminum Extrusion

A single-source solution for bulk, kit, or completely assembled units

Triad can develop the framework for all your structural design requirements from worktables, protective barriers, or linear systems to complete machine and perimeter guarding. Our experts will design, fabricate, assemble, and install all solutions that meet your specifications while ensuring that necessary safety controls and interlocks are in place. We can assemble and install onsite anywhere in North America.

Hoses 2 Go

Your source for cut length, cut & coupled, and bulk order industrial hose and fittings

Our Hoses 2 Go program is designed to eliminate the time-consuming hassle of hose procurement and assembly. We offer cut-to-length hoses, custom assemblies, testing and certification, bulk orders, and more - all designed to your specifications and delivered directly to you. Our high-quality hoses and fittings ensure quality assembly and reliable performance.

Premier products and support, all in one place

Whether you need a replacement part to avoid down time or you're looking for a complete system solution, our ParkerStores are your local, one-stop shop for expert support and Parker Hannifin products, including hose assemblies, hydraulics, pneumatics, filtration and more.
